like I am, and don't believe a darn word offher one of them has fold you. I don't know what in the hell you will do."
"Pennsy Guilty But Not Proven."

"Pennsy Guilty But Not Proven."

"Guilty, but not proven." is the verdict which Representative Gillespie thinks resulted from the adoption of his resolution to investigate the conditions under which the Pennsylvania controls the Chesapeake and Ohio and the Norfolk and Western and the Baltimore and Ohio and other railway lines. In a speech in the House to-day, Mr. Gillespie declared that evidence of control was seen all around him; that is, that it was plainly evident in the sections through which the subsidiary lines ran. He declared that the combine was killing the coal industry, driving the independent operator from business, and compelling the consumer to pay enormous prices for his coal.

There is said to be in preparation at the Department of Justice a report to be

the consumer to pay chormous prices for his coal.

There is said to be in preparation at the Department of Justice a report to be made to the Attorney-General as to whether there is ground for the prosecution of the Pennsylvania because of its alleged control of the three lines. Nothing could be learned at the Department to-day regarding the truth of this rumor. It is known, however, that there is talk of the introduction of a bill, possibly by Representative Gillespie, which will prohibit stockholders of a road being stockholders in a competing line, or, at least, which will prevent directors of one road serving in a similar capacity in connection with a competing line. tion with a competing line.

## Will Renew Fight.

The fight for the purpose of locating the control of the Chesapeake and Ohio. the Norfolk and Western and the Baitimore and Ohio, which Representative Glilesple initiated in his resolution last week, and which appeared to have falled

resolutions, which he hopes will elicit the information sought. These may accomplish something, but it is extremely doubtful whether anything can be elicited. The resolution is hardly privileged, as it is to be directed to the Interstate Commerce Commission. To be privileged, that is, to be entitled to consideration without reference to a committee, a resolution must be directed to the head of a denartment or to the executive If not

Several representa-tives of the company are expected here this week to do some work in aid of the pending exposition appropriation bill,

## GILLESPIE BRANDS REPORT AS INSULT

Representative Will Not Abandon

Pennsy Probe and Will Introduce Another Resolution.

Mr. Gillespie (Texas), author of the resolution regarding the alleged Pennsylvania Railroad combination, answered yesterday by the President, declared to-day that the answer was an insult; that with the great machinery at hand a complete investigation of actual conditions should have been made. He said such an investigation would show that the railroads carrying bituminous coal to the Atlantic ports are the Pennsylvania, New York Central, Baltimore and Ohlo, Chesapeake and Ohlo, Norfolk and Western and the Reading. He recited the facts developed concerning the rewere named in his first resolution in relations of four of these roads which were gard to their having the same stock's holders and directors.

He asserted that an investigation would show that there had been an allotment to each coal carrying road of a certain territory to prevent competition in markets by means of rate adjustments, agreements and combinations. Also that the Pennsylvania and New York Central, by means of their stock ownership and arrangements have revented coal from the

means of their stock ownership and arrangements, have prevented coal from the territory of the Norfolk and Western and Chesapeake and Ohlo being offered anywhere above the Virginia capes; also that the Pennsylvania Company has the power to curtail shipments from territory served by the Baltimore and Ohlo and Chesapeake and Ohlo and Norfolk and Western; also that the Baltimore and Ohlo declines to allot a fair proportion of cars to independent shippers or to allow independent companies to open up new mines and become shippers on the line of the Baltimore and Ohlo; also that an investigation would show that the Penninger on the that an investigation would show that the Penninger on the control of the shiftmore and Ohlo; also that an investigation would show that the Penninger of the shiftmore and Ohlo; also that an investigation would show that the Penninger of the shiftmore and Ohlo; also that an investigation would show that the Penninger of the shiftmore and Ohlo; also that an investigation would show that the Penninger of the shiftmore and Ohlo; also that an investigation would show that the Penninger of the shiftmore and Ohlo; also that an investigation would show that the Penninger of the shiftmore and Ohlo; also that an investigation would show that the Penninger of the shiftmore and Ohlo an means of their stock ownership and ar investigation would show that the Penn-sylvania Railroad and its officers were interested in coal companies shipping over its lines.

## Will Press Charges.

Will Press Charges.

Mr. Gillespie has prepared a resolution, which he will introduce requesting the President to direct the Interstate Commerce Commission to make an immediate investigation of all these charges.

That a commission controlled by the Pennsylvania Raliroad existed to control the coal output of West Virginia, was stated by Mr. Gaines (Republican), of that State, In the spring of 1904 he introduced a resolution in the House on that point. It was not pressed, but Mr. Gaines said he was furnished with the information he had asked for by the Interstate Commerce Commission some time later. This information showed, he continued, that the Pennsylvania and its affiliated lines controlled the Chesapeake and Ohio, the Baitimore and Ohio and the Norfolk and Western roads and exercised this control

for the purpose of limiting the coal pro-duct of West Virginia and preventing it from entering into competition with the coal from Pennsylvania mines in both eastern and western markets.

Mr. Gaines read two sections from the Southern Railway and Steamship Asso-ciation agreement filviding up the terri-ture as follows:

tory as follows:

"That a line from Buffalo, through
Salamanca, Pittsburg, Wheeling and
Parkersburg to Huntington, W. Va., be
made the dividing line between caster
and western lines for the territory lines shall not make joint rates from points east of that line for any points east of a line drawn from Chattanooga through Birmingham, Selma and Montgemery to Pensacola.

### Stifled Competition.

"The eastern lines including the Rich-ond and Danville Railroad, via Stras-irg or points east of Strasburg and the t of a line drawn from Chattanooga, ough Athens, Augusta and Macon to

Live Onk, Fig.

The traffic from Buffalo through Salamanca, Pittsburg, Wheeling and Parkersburg to Huntington, W. Va., and points on that line to and east of Chatchanoga, Calera and Salem shall be carried by either the eastern or western lines only at such rates as may be agreed upon."

This agreement, he said, was signed by the proper officers of twenty-nine railroad and steamship companies. It was these combinations to stiffe competition that led to government actions said Mr. Gaines.

said Mr. Gaines.

Declaring the rate bill supremely
Democratic and only adopted by the Republicans because the President had
forced it, Mr. Stanley (Kentucky) said:

## A Badly Abused Cereal.

A Badly Abused Cereal.

The rice that comes on the American table looks mushy; the grains seem all mashed together instead of being distinct and large. The trouble (sometimes due to the cooking) is usually explained by the statement that our rice is of inferior quality, though town and Texas article; the grains are large, firm and nuty. The fact is, our public won't buy any rice unless the grains shine and glisten. Consequently the first thing the milier does is to put his rice crop through a course of pollashing by which the covering of the kernel is rubbed off, and the result is that he gets a beautiful, almost sparkling, grain, which sells well, but inasmuch as the covering has been removed, the grains when cooked lose their identity and become a mush. The public can procure the unpollabel rice is a peculiarity of America. The public can procure the unpollabel rice for them, or "pollabing" han extra process which the miller will be glad to abandon.—February Country Life in America.
